EXAM SHIELD

JavaScript Question Bank

Language fundamentals, types and asynchronous programming.

10 questions: 8 multiple choice and 2 written. Total 15 marks.
Edition: with answers (staff copy, ready to import into Exam Shield).

How this paper is laid out

Questions are numbered in one sequence. Multiple-choice options are lettered with a full stop; each multiple-choice question is worth one mark unless stated.

Written questions show their marks in square brackets and are marked by an examiner.

To use this paper in Exam Shield, open an exam, choose Questions and then Import from PDF, and upload this file. Review the preview and import.

Section 1: JavaScript

Language fundamentals, types and asynchronous programming.
